PROFESSIONAL EXPERIENCE

Data Analyst | Kalvium, Bangalore **Aug 2025 – Present**

- Analyze and manage performance data for 450+ students, ensuring accurate tracking and reporting.
- Collect, clean, and process data to maintain reliable datasets for analysis and decision-making.
- Develop KPI reports, dashboards, and performance summaries to track progress and identify learning gaps.
- Analyze trends and provide data-driven insights to support academic and operational improvements.
- Mentor students in Data Science, Python, SQL, and Data Analytics while maintaining end-to-end performance tracking.

Data Science Intern | C-DAC, Bangalore **Apr 2025 – Aug 2025**

- Developed a Logistic Regression model for customer churn prediction, achieving 85% accuracy.
- Built a Power BI sales forecasting dashboard using 3+ years of historical data, achieving 90% forecast accuracy.
- Reduced monthly reporting time by 25% through automated dashboards and data visualization.
- Presented analytical findings and business insights through interactive dashboards and clear recommendations.

Founder & Project Manager | OceaneX, Mangalore **2024 – Present**

- Founded and managed a technology venture, successfully delivering 15+ client projects across web development, data analytics, e-commerce, and digital solutions.
- Managed end-to-end project delivery, including requirements, planning, execution, client communication, and final delivery.

- Led teams and coordinated projects to ensure timely delivery and client satisfaction.
- Developed websites, dashboards, and business solutions using MERN Stack, Python, Power BI, Excel, and WordPress.
- Managed additional digital services including SEO, branding, graphic design, photography, videography, and digital marketing.

EDUCATION

Master of Computer Applications (MCA) | 9.02 CGPA — Aug 2023 – July 2025
Yenepoya University - Data Science and Big Data Analytics

Bachelor of Computer Applications(BCA) | 8.00 CGPA — June 2020 – July 2023
Mangalore University – Computer Science

PROJECTS

Customer Churn Prediction | Python, Logistic Regression, Power BI
- Developed a Logistic Regression model to predict customer churn, achieving 85% accuracy.
- Built a Power BI dashboard to visualize churn patterns and provide actionable retention insights.

Sales Analysis & Forecasting Dashboard | Power BI, Python, Excel
- Analyzed 3+ years of sales data to identify trends and develop a forecasting dashboard with 90% forecast accuracy.
- Automated sales reporting and improved monthly reporting efficiency by 25%.

Exploratory Data Analysis | Python, Pandas, Matplotlib, Seaborn
- Performed end-to-end EDA to identify trends, patterns, correlations, and outliers in real-world datasets.
- Created visualizations and summary reports to communicate key findings and support data-driven decisions.

HR Analytics Dashboard | Power BI, Excel
- Developed an interactive HR dashboard to track attrition, headcount, employee performance, and key KPIs.
- Provided data-driven insights to support workforce planning, hiring, and retention decisions.

E-Commerce Sales Analysis | Python, SQL, Power BI
- Analyzed transactional data to identify top-performing products, customer segments, and seasonal trends.
- Delivered actionable insights and recommendations to support revenue growth and marketing strategies.
